

## FABI, the Forestry and Agricultural Biotechnology Institute, at the University of Pretoria

### IUFRO WP 7.03.16 Mentoring Program

24<sup>th</sup> of January 2022  
Europe and Africa session  
12.00 UTC

21<sup>st</sup> of February 2022  
North, Central and South America  
18.00 UTC

28<sup>th</sup> of March 2022  
Asia and Oceania session  
04.00 UTC

In early 2022 the WP 7.03.16 will host three symposia highlighting the work of graduate students in the disciplines of Behavioural and Chemical Ecology of forest insects. The first symposium will be focused on the regions of Europe and Africa, the second on the regions of North and South / Central America, and the third on the regions of Asia and Oceania. **The symposia will occur virtually and are open to everyone to attend; however, only students will present their work.** Talks will be pre-recorded and submitted in advance of each symposia for judging. The top three from each region will be presented for a total of six student presentations per symposia. The best talk from each region (i.e., two will be selected from each symposia) will be recognized and our goal is to offer financial assistance to each winner to attend the IUFRO All-Division 7 meeting in 2022 in Portugal where the winners will present their talks in a symposium highlighting student research in the working party.

Please fill in the registration form on the left menu of this page if you are interested in joining the symposia as a viewer or a presenter. After registration you will be contacted by email with a link to attend each symposium.
