

BOOK OF ABSTRACTS  
ALL-IUFRO CONFERENCE 2022

## **Forests in a Volatile World – Global Collaboration to Sustain Forests and Their Societal Benefits**

**21 – 23 September 2022, Vienna, Austria  
University of Applied Arts ("Die Angewandte")**

The conference explores the critical roles of research for the conservation and sustainable management of forests and trees under rapidly changing environmental, economic and social conditions. The program, developed jointly by IUFRO Divisions, Task Forces and Special Programs and Projects, places a particular focus on the importance of forests in achieving the Sustainable Development Goals.

# PROCEEDINGS

## **All-Division 3 Conference and 44th Council on Forest Engineering and 54th International Symposium on Forestry Mechanization: One big family - Shaping the future together**

**4-7 October 2022, Corvallis, Oregon, United States**

Editors: Woodam Chung, Christian Kanzian, Peter McNeary

The Council on Forest Engineering (COFE), the International Symposium on Forest Mechanization (FORMEC), and the International Union of Forest Research Organizations (IUFRO) Division 3 will meet in Corvallis, Oregon. This year's international meeting is the in-person forum on cutting-edge scientific research and innovative practices in forest operations and engineering. The 2nd IUFRO Division 3 Doctoral Conference will be held alongside this 2022 Joint Meeting. One Big Family – Shaping Our Future Together will focus on building a strong community of forest engineering across continents and sectors. Together, we will learn from each other and shape our future.
